A few notes from classmates have been really appreciated! Personally, I'm adapting to my new lifestyle at Woodcrest. I have a lovely, roomy apartment, meals in a beautiful dining room and social activities daily. Masks are now optional, and nothing could be more welcome! But with all the amenities, I can't deny there are times of loneliness. So to all classmates, I say, stay in touch. Nothing is better than phone calls, letters and emails. Share, share, share!

**Don Cosby's** Christmas letter was cheery! His new address is 24431 Lyons Ave., Apt. 232., Santa Clarita, Calif. Don turned 95 in July, and his kids planned a surprise party for him with about 20 friends and family members. He had a great time and said it was great to be there and hugged by his incredible children and grandchildren. He still enjoys church weekly, musical

performances and bingo. His kids call daily and see that he's well cared for. To all of you, Don sends God's peace and goodwill for the days ahead.

**Jane Hill Coddington** sends greetings and says she's doing well in Venice, Fla. She also wonders how many 48ers are still around. Hmm?

**Bill Virgin** sent greetings but said he has nothing going on. But he's had a new furnace installed lately, and his income tax papers were already off to the preparer. And I consider THAT to be quite an accomplishment!

My last note from **Don Windsor '49** said he and Dolly are now in an apartment, instead of their cottage, at Delaware's Cokesbury Village—a retirement home they have loved for years.

- How has Dickinson's focus on global education impacted your life or career since graduation?
- If you could return to Dickinson as a student for one day, what's one thing you would be sure to do?

is quite welcome but cannot last long. The world is rushing onward, and we must not languish in a rut but be ready to go with the flow. Artificial intelligence is taking over everywhere. For example, instant language technology is already with us with a means of automated translation, written or verbal, from one language to another, as one person is speaking to another in real time. There is, of course, much refinement to be done, considering the many languages in the world, with errors occurring as context and tone are missing. How do we, however, envision the role of Dickinson and most other colleges in teaching language? Will courses still be needed? Even more startling innovations in AI are coming in the form of smart contact lenses that offer the wearer visible displays, video cameras, medical sensors and more with merely the blink of one's own eye. Most are like nonsurgical implants, removed and inserted by the user, but for the daring, there can be a surgical one with battery, sensors, electronics and a procedure more detailed than you might want to know about. All of this can make us want to yell "Stop the world—I want to get off" (which is the title of a 1961 musical). But we cannot get off because the future is now! As the earlier soothing sounds of "Comfort and Joy" may still linger in our minds long after its season, we know that joy will surely be in our changing future, but for now, let us enjoy wearing a blanket of comfort for just a little while longer.

**Geo Kaplan's** annual New Year's greeting to all refers to the family wedding of Allie and Mike (fully detailed in a previous column), saying that although there were birthdays, Seders and family Zooms, it was the celebration of celebrations in the interesting year of 2021. He said, "The fall and rise of the pandemic influenced our daily lives, as well as vaccinations, booster shots and tests ... and we are all here for another great year."

Hearing a friend's voice after many years is always a pleasure, as it was in talking with **Fritzie Scott Raiford**. She lives in Jamison, Pa., which is in Bucks County. Fritzie lives in a cottage on the property of her daughter, who is a teacher. The setting is on wooded

land, which provides many moments of enjoyment. Currently she does lots of reading and has favorite TV shows to enrich her days. The special pastime of bridge continues, with occasional lunch with friends, sometimes twice a week. Keeping in touch with **John and Patty Hoffman Colburn** continues through email. *Following receipt of this note, we received word that Fritzie passed away. Her obituary will be included in the summer issue of Dickinson Magazine.*

**Bill Heck** is also looking forward to spring when the Juniata County Library will again display the interesting collection of "masterpieces" which he has painted.

**Bob Kaplan**, our self-established class poet, wrote "Pandemic Positive: I learn'd to pronounce epi-de-mi-ol-o-gist, my sole COVID gain."

**Jean Kottcamp Simpson** will soon have two Dickinson granddaughter graduates, **Lydia Fox '19** and **Rebecca Fox '22**! When she visited them on campus, she enjoyed seeing the changes in the college. Following a two-year COVID hiatus, she's resumed volunteering at the Saratoga Springs library.

**Don O'Neill** writes, "As an expert in tactical class hunter-killer nuclear-propelled submarine design and operations, I wrote a critical assessment of the AUKUS submarine

project 'AUKUS Submarine Project: A Critical Assessment' which was published in *Defense Advanced Technology and Logistics Magazine*, January-February 2022.

**Ferd Rodriguez** is looking forward to going sailing in the spring on his boat, the Hobie-Cat. In the meantime, he's working very hard to get a Small Business Innovative Research grant to study the use of "organized light" as an "effective healing process."

Paul Silverman writes, "I continue practicing law now from my home office unless required to go into NYC for the firm in which I am now designated special counsel. Same wife, same house, same car, three children all happily married though none live close and a total of five grandchildren. So, we did our part as proud parents. And my son is a N.Y. Supreme Court judge: I am justly proud of him. My law work had me traveling all over the U.S. and Europe. Now, I am fortunate to live in a house that allows me to travel from room to room. I

am hoping that our trip on a clipper sailing ship from Rome to Monaco and around Corsica will actually come to fruition in June 2022 as it did not in April 2021, for obvious reasons. I hope my classmates are faring well and are healthy and of sound mind and spirit. I enjoyed very much the college webinar with Professor Allan and his students over the decades. **Ray Jones '70** reports that he and wife **Janet Whiffen Jones** are enjoying retirement in Charlotte. Janet is keeping fit swimming at her local YWCA. Additionally, she is pursuing her love of gardening. Janet secured certification as a North Carolina Master Gardener—a certification which required a full year of classes and related volunteer work. Janet is putting those skills to good use tending to their home vegetable gardens. Both Ray and Janet are looking forward to returning to Carlisle for Ray's 50th reunion, twice delayed by the COVID pandemic.

**Darby Nye** reached out to say reports of his demise are greatly exaggerated. A Dilbertian administrative mishandling in the halls of government took him off the rolls of the living. He is still working through the ensuing cyber nightmare. Check out the full story as reported by a Washington, D.C., TV station, "Thousands of People Mistakenly Declared Dead Every Year": [dson.co/mistakedc](https://dson.co/mistakedc). It is a cautionary tale for us all.

On a somber note, I received word of the passing of classmate **Steve Simpson**. Steve was an avid student of history and political science. # 2023 Global Adventures

Join us as we travel to ...

**MAY 18-28**

- **Italy for a food tour with Lecturer Luca Trazzi**

Living like an Italian is what this culinary adventure is all about! Our culinary stroll will start and end in Bologna and includes Cinque Terre and the Chianti region. We will explore rich cultural traditions through food and wine.

**MAY 27-JUNE 8**

- **Croatia, Slovenia & The Dalmatian Coast for a history tour with Professor Karl Qualls**

From cosmopolitan cities to ancient forests and seaside villages, we'll delve into the cultural history of Croatia from the first settlement to the present. We'll learn about the emergence of modern Croatia through philosophy, the arts and literature.

**AUG. 13-20**

- **London for a theatre trip with Professor Todd Wronski**

We'll sample theatre, history and culture with four performances in some of London's classic venues, each from a different century, and from both sides of the curtain. Includes an optional extension to Avon and the Cotswolds.

**SEPT. 3-12**

- **Scotland for a hiking trip with Professor Emeritus Thomas Reed**

Reed specializes in medieval and Victorian literature and film studies. During the trip, his expertise on the life and works of Robert Louis Stevenson will guide our walking tour of Scotland.

Ken de Groot strongly recommends hosting an extern—a great way to stay connected to the Dickinson community and give back to current students.

## 1976

**John and Nanci Fox Taylor**  
johnstaylor@outlook.com

Just a reminder that for 2022 Alumni Weekend, the college is arranging a 1976 table at the alumni dinner on Saturday, June 11. We hope to see a number of 1976ers and friends from adjacent classes there. Info is at [dickinson.edu/alumniweekend](http://dickinson.edu/alumniweekend).

**Ken de Groot** reports he enjoyed hosting a current Dickinson student in his clinic under the auspices of Dickinson's job shadow Externship Program. **Souha Alioua '24** joined him and his colleagues for two days in January. Souha, a mathematics major, came to Dickinson from Tunisia, where her mother is a physician working under a socialized medicine model. On the premed track, Souha wanted to know more about American health care. They talked about how America's health care system works. With patient permission, she learned firsthand about diagnoses, treatment rationale and expected outcomes. Souha had the opportunity to interact with a good number of Ken's patients. She followed up with a most gracious note. Ken says that hosting an extern has been a gratifying experience—one he would recommend to any alum. This was his second student-hosting experience, having hosted **Colin Fagan '21** two years earlier.

**Rick Fisher** reports from London that, although the pandemic has thrown curveballs to freelancers in the performing arts, things are slowly coming back. This spring, he was delighted to be lighting two new plays in London. Then, in July, he will be lighting a new production of the rarely performed Richard Strauss opera *Die schweigsame Frau* (*The Silent Woman*) at the coincidentally named Richard B. Fisher Performing Arts Center at Bard College in New York City.

**Dan Guida** reached brief fame on the local San Diego television news talking about the hugely consequential replacement of his gas furnace and old AC unit with a new electric AC/heat pump as part of California's renewable-energy push. With solar on the roof and the sweet California rebate, he calls it a total no-brainer. It is not clear if this appearance will result in an Emmy, nor is it clear if this report was picked up nationally. Stay tuned.

**Ranny Martin** writes from Tübingen, Germany (near Stuttgart), that she is well and looking forward to travel this year. She did make it stateside this past September and had a great visit with **Pam Bennett-Santoro '75** and **John Santoro '75**.

**Elena Martínez-Vidal** teaches at Midlands Technical College (MTC) in Columbia, S.C. MTC is a community/technical college that prepares students both for careers and as a bridge to four-year institutions. Having been department chair of humanities for 16 years, she was delighted to return to

teaching not only as a professor of speech and theatre but also as coordinator of the theatre and music professors. She wears several other hats at MTC. Her teaching is exclusively online, and she has had 20 years to hone the process. Her husband, Joe Morales, works at the University of South Carolina. Noting that life is good, they are content to be parents to Carlos (her adult stepson) and the feline Olivia.

Your scribes, **John and Nanci Fox Taylor**, enjoy spending time with family and friends. Their three granddaughters range from 1 year to 17 years old. They have started attending some fountain pen shows again, where they strategically add to their vintage and modern fountain pen collections. Happily, desk drawers and the "closet of doom" can accommodate many pens and many bottles of ink. It takes much less space than collecting cars or boats ...

**Robin Wagner** is in her 28th year at Gettysburg College, where she serves as dean of the library. She has been lucky to get four research sabbaticals in Australia over the years. There, she has written and presented on rural libraries, books and reading in the Outback (not the steakhouse!) and the depiction of Aboriginal characters in Australian children's literature. She and her husband, Michael, live adjacent to the Gettysburg battlefield. They have three adult children and two grandchildren.

By the time this issue hits your mailbox, our 45th-reunion celebration will be just weeks away! The planning committee has been busy thinking of ways to make this event special, and we're stoked that we can gather in person! Please know that the college and the committee are working together to ensure that all necessary COVID precautions and CDC recommendations will be in place. Please come to see what's new on campus with regard to buildings and college initiatives, as well as help us reach a 50% goal of participation toward our class gift. Any gift amount counts toward participation. Be part of the enthusiasm as the college moves forward. Some of the things that will make this reunion the best ever will be an informal reception with President **John E. Jones III '77, P'11**, a German @ Dickinson mini reunion and a tree-planting ceremony to honor our beloved classmate **Roberta Zmuda Greenspan**, who embodied a great Dickinson spirit in planning reunions and many other college projects. We look forward to seeing you June 10-12. (Your reunion committee: **Dale Zeigler, Laurie Colahan, Jennifer Ward Reynolds, Rebecca "Becky" Anstine Smith, Bill Zapcic, Craig Weeks, Martha Lester Harris, Rik Kristiansson** and **Melissa Hoffman** with our Dickinson liaison, **Elizabeth Meikrantz '95**.)

**Becky Anstine Smith** continues to find creative ways to combine her love of music with the German and French languages. When COVID stalled her plans to visit Europe, she began taking advanced German classes at UMBC. She reaped the fruit of her labors on a trip to France, Germany, Switzerland and Austria in April. Her organ and harp duo Ensemble Lafayette has been invited to perform and present a workshop at the American Harp Society's National Conference in June. Becky enjoys planning with the 45th-reunion committee and looks forward to seeing everyone in Carlisle!

**Laurie Colahan** lives in Summit, N.J., with husband Steve; both are still working but enjoying a finally empty nest when they aren't someplace hiking or biking. Looking forward to being with great people and catching up!

**Congratulations to Deborah Young Huber for establishing the Michael Huber '77 and Deborah Young Huber '77 Scholarship.**

**Martha Lester Harris** is pursuing a call to ordination as an Episcopal priest. She graduated from Lancaster Theological Seminary in May 2021 with an M.Div. and a certificate in Anglican studies. She is currently serving as pastoral care coordinator at Saint James Episcopal Church in Lancaster, Pa., and as lay pastor/worship leader at St. Paul Episcopal Church in Columbia, Pa. She, husband Randy and daughter Kathryn reside at 314 W. Chestnut Street, Lancaster, Pa. 17603. She looks forward to seeing many classmates during our 45th reunion at Dickinson June 10-12.

**Dale Zeigler** retired from Emory Healthcare and is living in Atlanta, a southern outpost of Dickinson alumni, and is excited about reconnecting with his tennis, biology and classics buddies.

**Ronald Hershner** was named to the *Central Penn Business Journal* Power 100 list for two consecutive years. The list recognizes individuals who inspire innovation, spark economic growth and make decisions in their positions to shape communities and influence quality of life. Practicing law for 40 years, Ron recently celebrated two decades with the law firm of Stock and Leader, where he concentrates his practice in business transactions, estate and business planning, commercial real-estate acquisitions, leasing and finance.

**Erika Walters-Engemann** officially retired from the Federal Reserve Bank of New York on March 1. She spent 16+ years there as a senior financial institution examiner, preceded by 23+ years in various capital markets and credit-risk positions on "the Street." Erika and husband Ken Engemann (Rutgers '81) sold their home in New Providence, N.J., last fall. They are now renting a furnished house on Lake Norman,

N.C., while waiting for their lake house renovations to be completed. While Erika finds it hard to break the habit of rising at 5:30 a.m. to catch a 6:52 a.m. N.J. Transit train to Hoboken, she has regained about three hours in her day by not making that commute. Their daughter and her family, which includes two wonderful, cute grandchildren, live in Jersey City, N.J., so although they are no longer within driving distance, thankfully there is FaceTime. Erika still keeps in touch with a number of Dickinson sisters, and they hope to get together again this year.

**Judy Ridner**, a Mississippi State professor of history, received the university's 2022 Mississippi Humanities Council Teacher of the Year for bringing insights of the humanities to public audiences. Judy's tribute included a \$400 honorarium and invitation to deliver the College of Arts and Sciences Humanities Lecture. Her presentation, "Living in the Material Worlds of Early America," highlighted how consumer choices—particularly regarding what to wear—influenced the evolution of racial, ethnic and class identities in pre-1820 America in ways that offer lessons about the present day.

**Kirsten Nixa Sabia**

We are looking forward to celebrating 30 years since we walked out the doors of Old West. We understand challenges—kids' graduations, work commitments, life in general—may prevent some of you from gathering in Carlisle on June 10-12, but we are organizing a wonderful weekend to enable as many of us as possible to reconnect, reminisce and carry our amazing Dickinson connections into the future! We're proud to know that our version of Dickinson still exists ... the memories are still there, from the Quad to Morgan, the cushies to Bosler steps, Kline to Weiss, the GMan to the old Plunkett. We will always have the friendships we forged, the wonderful memories of our time there and the encouragement of our critical-thinking skills that have brought us where we are today. This is worth a celebration, and we can't do it without you! We may be over 50, but let's celebrate like we did in 1992! We deserve it.

Many of you may have heard from members of the reunion committee about making a gift to the college. We have a lofty goal of raising nearly \$200,000 in gifts from 35% of our class. Due to some extremely generous classmates, we are excelling with the financial number, but we do need more assistance in hitting our participation goal. Any amount is greatly appreciated! If you have the ability, please consider giving now, as we have a very generous fundraising initiative in memory of our classmate, political science and geology double major **Matthew Baker**.

In an incredibly gracious gesture, **Rolf Ackermann** has put forth a matching challenge: Now through the end of the fiscal year (June 30), Rolf will match all gifts (not just from the class of '92) that are directed to the Matthew Baker '92 Memorial Scholarship Fund, up to \$50,000. Rolf, **Alyson Lighthart** and **Craig Tucker** (who passed away in 2018) established the Matthew Baker '92 Memorial Scholarship Fund to provide support for a worthy student with demonstrated financial need. Matt, who was chief political analyst for Strategic Forecasting Inc., an Austin, Texas-based private intelligence service that studies geopolitics for corporate customers, was tragically killed in 2003. Throughout his career, he had become an expert in international politics and conflict and was photographed in *Time* magazine (1999) for his work with Stratfor.

Your correspondent came across the following words of wisdom from Matt's funeral, which we can all take to heart and make a part of our lives. Matt's mantra was:

If something bothers you, and you have the ability to do something about it, stop complaining.

Do something about it.

Simplify, simplify, simplify.

Enjoy and appreciate, for you never know what day will be your last.

## Cogan Lecture 2022: Chris Edenbo '01

This year's Cogan Alumni Fellow was **Chris Edenbo '01**, who gave a talk titled "White Collar to Blue Collar: Applying an English Degree" in the Stern Great Room.

"Someone might be wondering, 'What do we get out of an English major?' " he said to the audience at his March 7 talk.

"Well, you learn an excellent set of skills at Dickinson, and at your next job down the line, it might be something as simple as language—learning how to use their words so they know how to understand you."

Those language skills have helped Edenbo find success in an unexpected arena: He's a professional pipefitter and an active participant in the profession's union. Edenbo started postgraduate life supervising a Diakon Wilderness Center therapy and vocational program for youth who had been in the juvenile justice system. But when he started an apprenticeship with the Harrisburg Local 520 Union for Plumbers & Pipefitters, he found his niche.

"College and trade school complement each other," says Edenbo, noting that his supervisors have always been drawn to his communication skills.

Edenbo's evolution and adaptation are reminiscent of Eleanor Cogan, someone with whom he once shared a classroom. "I'm honored to have met her," he says, "and I'm honored to share in this fellowship established in her name."

Cogan started auditing classes in 1979 at Dickinson at age 70 and didn't stop until 1999. The following year, to honor her lifelong commitment to scholarship, the college established the Cogan Alumni Fellowship, through which the Department of English invites a graduate back to campus each year to share life and work experiences with current students.

Dickinson College is an incredible institution for learning. As alumni, we can be proud that Dickinson continues to advance by providing scholarships, adding relevant and important academic focus areas such as data analytics and sustainability, providing wellness services, receiving grants in burgeoning industries such as our College Farm for innovative agricultural research, celebrating diversity and inclusion and so much more. As a result of all of this, we continue to attract a bright and energetic student body who will continue to usher our beloved college into the future. This all comes at a cost! Please consider donating any amount today to help continue our Dickinson tradition.

We are so very fortunate that our paths intersected at Dickinson, and while we have grown in many directions since our time on campus, it is always important to reflect on our college memories. Please come back to Carlisle in June to "remember when," and, if you can't come then, "remember now" by following a new Facebook group ... Dickinson College Class of 1992. Your 30th-reunion committee appreciates all of you and your support of Dickinson. We hope to see you soon! (Written with assistance from **Jeanne Lennox Sullivan** and **Liz Kenny-Stein**.)

This year's Dickinson College English Department's Cogan Alumni Fellow was **Chris Edenbo**, who presented a speech titled “White Collar to Blue Collar,” which can be viewed on YouTube at [dson.co/edenbocogan](https://dson.co/edenbocogan). During his fellowship, Chris enjoyed meeting current students and faculty and talking about how he applied his English degree as a union pipefitter. **Jessica Howard** and a current Dickinson librarian provided him with a tour of the library and shared how research has changed in the past 21 years. Chris noted, “This fellowship gave me a moment to reflect on my path since college, and to consider how the Dickinson part of me shaped my choices and opportunities.” Read more on Page 40.

**Adam “Granduciel” Granofsky** was highlighted in the *Boston Globe*. The article “For the War on Drugs’ Adam Granduciel, a Return to a Place He Once Called Home” tells how his childhood in Dover, Mass., and the nomadic life he’s lived since then have influenced the composition of the songs on the new War on Drugs album, *I Don't Live Here Anymore*.

This edition of *Dickinson Magazine* marks the 60th consecutive class column for the class of 2007. There are two people who deserve to be recognized for this milestone achievement. **Alicia LeBlanc** and I co-wrote our class column for five years. I would also like to recognize and thank *Dickinson Magazine* Editor **Lauren Davidson** for producing an award-winning publication. I have worked for five universities, and although I am biased, *Dickinson Magazine* sets the standard for higher-education

alumni magazines. Perhaps even more impressive is the fact that *Dickinson Magazine* is a quarterly publication, unlike other institutions that produce a yearly or biannual alumni magazine. The time and effort required to deliver such a high-quality product for 100 years is indeed noteworthy. Writing our class column for 15 years has given me the opportunity to reconnect with so many outstanding Dickinsonians. If you have never sent in a class note, I look forward to hearing from you. I would also like to acknowledge **Alissa Zawoyski**. Alissa served on the 15th-reunion planning committee and like other reunion planning committee members volunteered to serve our class. Out of 14 Dickinson reunion committees celebrating reunions in 2022, only the class of 1992 and class of 1967 had more reunion committee volunteers than the class of 2007. Our 10-person committee began meeting a year ago to help plan our 15th reunion along with Dickinson staff liaison **Anna Evaneck**. The collective commitment of these individuals to the class of 2007 is appreciated. I hope to see everyone on campus soon!

**Danielle Goonan** reports that **Melissa Feingold Greenberger '91** reached out to her via LinkedIn for a virtual coffee and to talk about the philanthropy sector. She recently joined the Long Island Community Foundation as a program officer and wanted to network with other Dickinsonians in the sector. See pictures, Pages 36-37.

**Elizabeth Skolnik Hampton** is a new vice president at Beacon Global Strategies, a leading strategic advisory firm focusing on global public policy, government procurement, emerging technology and geopolitical risk analysis. She previously worked at the General Services Administration, Federal Acquisition Service, doing mission-critical assisted acquisitions for federal customers.

Hello, friends! I'm excited to step into the role of class correspondent and reconnect with many of you. Getting real mail these days feels rare and like a treat, so receiving *Dickinson Magazine* is always a highlight. I don't know about you, but I quickly flip to the back of the issue to see if any class notes have been submitted. I hope you will consider emailing me (or writing via LinkedIn, Instagram or Facebook) an update to share with our classmates. After 11 years living and working at Mercersburg Academy (an hour from Carlisle), my husband, **Tim Crouch**, and I moved to Dallas in August. Tim's the director of development at St. Mark's School of Texas (all boys, grades 1-12), and I am the senior associate director of admission there. We have two boys (George, 2½, and Henry, 9 months) who keep us busy and in constant search of the closest playground—so things are a little different than they were three years ago. We miss seeing friends on the East Coast, so please reach out if you're passing through Dallas!
